The 2024 Toyota Prado TXR 2.4L Turbo 7-Seater 4WD Automatic is engineered to combine strong performance, comfort, and dependable off-road capability. It is powered by a T24A-FTS 2.4L 4-cylinder turbocharged engine producing 267 HP and 430 Nm of torque. An 8-speed automatic transmission and 4X4 drive system provide controlled performance across city streets, highways, and demanding terrain. The Prado TXR also features Crawl Control, Down Hill Assist Control, and a center differential lock for improved off-road control. With seating for seven, a 110-litre fuel tank, 10.6 KM/L fuel efficiency, and a 2,850 mm wheelbase, this SUV is well suited to family journeys, daily driving, and outdoor adventures. Its five-door layout supports practicality and versatile everyday use.

Inside, the Prado TXR offers a practical cabin focused on comfort and everyday convenience. Fabric seats provide a durable interior, while the tri-zone climate control system helps maintain a comfortable environment throughout the cabin. A 7-inch Multi Information Display keeps key driving information accessible, while the three-mode Sport Driving dial provides Eco, Normal, and Sport settings. The cabin also includes a centre console cooler box, urethane steering wheel, electric parking brake with Brake Hold, and push-start button. Entertainment is handled by an 8-inch AM/FM/DAB/Bluetooth audio system with six speakers, wired Apple CarPlay, wired Android Auto, and USB media connectivity for convenient device integration. USB connectivity through the media interface keeps devices conveniently connected.

The exterior gives the 2024 Toyota Prado TXR a confident and practical appearance, featuring 18-inch alloy wheels, LED headlights with Daytime Running Lights, headlight leveling, and LED front and rear fog lamps. A silver front grille, black front bumper guard, silver back door garnish, side steps, smart keyless entry, and power auto-retractable door mirrors add functional styling details. Safety equipment includes front, side, curtain, and knee airbags, Toyota Connect App, a rear-view camera, front and rear parking sensors, Crawl Control, Down Hill Assist Control, center differential lock, and a Tire Pressure Warning System. E-Call emergency assistance, ISOFIX, cruise control, and other useful systems further support confident driving. Additional convenience comes from the rear-view camera and parking sensors, while electronic systems help maintain stability and control during varied driving conditions. This package makes the Prado TXR a capable choice for families seeking reliable road performance and practical off-road functionality.
