# SAHARA MOTORS GROUP

The 2025 Toyota Camry Hybrid LE-G 2.5L is where modern hybrid engineering meets timeless design. With its powerful 226 HP from a combined motor-engine system and ECVT transmission, the Camry offers smooth, efficient driving without sacrificing performance. Its aerodynamic silhouette is matched by sleek design cues like the colour-keyed bumpers, LED headlamps, front fog lamps, and a bold black matte front grille finish. The 17-inch alloy wheels, tilt & slide sunroof, and UV-cut glass elevate its premium road presence. Built with attention to both performance and aesthetics, the Camry's commanding size (4921 mm in length) and poised stance make it perfect for both professional and personal driving—offering a refined and confident experience behind the wheel.

Step inside the 2025 Camry Hybrid LE-G and you're welcomed by an interior that blends modern design with thoughtful ergonomics. The fabric seats provide all-day comfort, while the 8-inch touchscreen display, Android Auto, Apple CarPlay, and 6-speaker audio system keep you connected and entertained on every journey. The driver's power seat, lumbar support, and telescopic steering wheel offer personalized adjustment for maximum comfort. With ample room for five passengers and a spacious trunk, the Camry also features a 60:40 split rear seat and rear A/C ducts, ensuring comfort for all. Add to that small but impactful touches like a leather-wrapped steering wheel, digital clock, sun visors with lighting, and fabric-lined door armrests, and you get an environment that feels both practical and premium.

The 2025 Camry Hybrid LE-G is packed with intelligent features that prioritize your safety and make everyday driving effortless. It includes 7 airbags, ABS with EBD & BA, Vehicle Stability Control (VSC), Traction Control (TRC), and Hill-Start Assist (HSA) – ensuring peace of mind in any condition. Toyota's ISOFIX system, rear fog lamps, and TPMS provide added security for families and long-distance drivers alike. Convenience is key with Smart Entry & Start, cruise control, parking sensors (front and rear), and a rearview camera that enhance every driving situation. Other thoughtful additions like power windows, power door locks, auto light control, USB charging, and a full-size spare tire show Toyota's attention to real-world needs. This is a sedan built for the modern driver – smart, secure, and ready for anything.
