SAHARA MOTORS FZE

The 2026 Toyota Land Cruiser 76 Hardtop Z1 V6 4.0L is a rugged, five-seater SUV that combines off-road capability, durability, and performance and legendary Toyota reliability. Powered by a 4.0L six-cylinder 1GR-FE petrol engine with VVT-i, it produces 228 HP at 5200 RPM and 360 Nm of torque at 3800 RPM. The six-speed automatic transmission delivers power, while the four-wheel-drive 4x4 system, front and rear differential locks, coil spring front suspension, six-layer leaf spring rear suspension, ventilated front disc brakes, and rear drum brakes provide confident control. The Land Cruiser also features ABS with EBD, VSC, DAC, HAC, and TPWS for added control on demanding roads and trails.

Inside, the 2026 Toyota Land Cruiser 76 Hardtop Z1 offers a comfortable cabin for five occupants, with leather seats, separate front seats, manual air conditioning, and a leather steering wheel with wood-grain effect. The cabin features a 4.2-inch MID with Optitron speedometer, telescopic steering wheel, centre console, front cup holders, LED cabin lamp, and carpet floor mats. Two USB-C ports, a USB-A port, a 9-inch display audio touchscreen, wireless Apple CarPlay, DAB radio, and a two-speaker audio system provide connectivity and entertainment. A cool box, cruise control, power windows, remote central door locking, and rear camera add convenience for regular use.

The exterior of the 2026 Toyota Land Cruiser 76 Hardtop Z1 combines a distinctive rugged appearance with practical equipment, including 16-inch alloy wheels, 265/70R16C tyres, a black front bumper, LED headlamps, LED daytime running lights, LED front fog lamps, and headlamp levelling. Power side-view mirrors, side steps, front and rear mud guards, over fenders, a roof rack, body stripes, an electrical winch, snorkel, and a hard-type spare tire cover enhance its capability and character. Measuring 4970 mm long, 1800 mm wide, and 2180 mm high, with a 2730 mm wheelbase and a 130-litre fuel tank, the Land Cruiser is designed for demanding journeys and challenging terrain. Toyota Safety Sense includes PCS, LDA, and AHB for enhanced driving confidence and safety.

SEAT POSITIONING LEVELER

A close-up photograph of the underside of a black leather car seat. The seat is mounted on a metal frame. A red arrow points from a white text box labeled 'SEAT POSITIONING LEVELER' to a horizontal metal bar with a blue adjustment knob. Below this bar, a black plastic component with a blue logo is visible. The seat is positioned on a grey carpeted floor.
