The 2026 Toyota Coaster High Roof 2.8L Diesel 22-Seater Automatic is a trusted fleet bus designed to provide solid reliability, passenger comfort, and operating efficiency. Whether used for employee transport, school services, tourism, hotel shuttles, or public transport, the Coaster is engineered to manage demanding daily operations with confidence. Powered by Toyota's trusted 2.8L 1GD-FTV four-cylinder Euro 4 diesel engine, producing 147 HP, and matched with a 6-speed automatic transmission, it delivers easy acceleration, efficient fuel consumption, and reliable performance on city streets and highways alike. Its 2WD drivetrain, double wishbone front suspension, and leaf spring rear suspension provide a firm, comfortable ride while supporting durability during daily full-load passenger operation.

The spacious high-roof cabin is carefully designed to enhance passenger comfort and convenience. With seating for 22 passengers, the Coaster features high-back fabric seats, generous headroom, and spacious aisles for easy movement throughout the cabin. The automatic side door, rear luggage door, manual rear heating with dual vents, front manual heater, cool box, digital clock, curtains, and room lamps create a comfortable environment for short commutes and lengthy journeys. The basic audio system includes AM/FM/CD, USB, AUX, and MP3 functions, with a VFD display, standard microphone, amplifier, and four speakers.

Safety and practicality remain central to the 2026 Toyota Coaster. The vehicle is fitted with ABS, Brake Assist (BA), driver and front passenger airbags, and 3-point seat belts across all rows, providing better protection for occupants. Additional equipment includes the Tyre Pressure Warning System, rear window defogger with timer, rear fog lamp, high-mount stop lamp, front and rear wipers, underfloor spare wheel, painted resin rear bumper, outside rear-view mirrors, automatic folding center and rear side doors with warning buzzer and warning lamp. With a 95-liter fuel tank, ventilated disc front brakes, drum rear brakes, vinyl rear floor mat, halogen headlamps, green laminated front windshield, sun visors, and manual heating, the Coaster offers practical durability for businesses and fleet operators. Designed for modern fleet operations, it balances performance, safety, comfort, and efficiency for every journey.
