SAHARA MOTORS FZE

The 2026 Toyota Prado TX2 2.4L Turbo 7-Seater 4WD Automatic is built to deliver a strong balance of power, comfort, and off-road capability. Under the hood, it features a 2.4L 4-cylinder turbocharged engine that produces 267 HP and 430 Nm of torque. Paired with an 8-speed automatic transmission and full-time 4WD with a transfer case, the Prado TX2 offers smooth and controlled performance across city roads, highways, and challenging terrain. With high and low range 4WD, central and rear differential locks, seating for seven, and a 110-litre fuel tank, this SUV is ready for family trips, long journeys, and off-road adventures. With a fuel efficiency of 10.6 KM/L, it also offers practical performance for everyday driving.

Inside, the Prado TX2 provides a spacious and practical cabin designed for comfort and convenience. The interior features fabric seats, manual adjustment for the driver and front passenger seats, a 7-inch Multi Information Display, and dual-zone automatic front air conditioning with automatic rear air conditioning. The Drive Mode Select system offers Eco, Normal, and Sport modes, while Crawl Control helps provide better control on difficult terrain. Entertainment comes through an 8-inch display audio touchscreen with Apple CarPlay, USB-C connectivity, and six speakers. Additional features such as steering wheel controls, a tilt and telescopic steering wheel, smart entry, engine start/stop button, and USB-C charging ports across all three rows make every journey more convenient.

The exterior combines Toyota's rugged design with practical features, including 18-inch alloy wheels, LED headlights, LED Daytime Running Lights, LED front fog lamps, a black front grille, side steps, mud guards, and power auto-retractable mirrors. The Prado TX2 also includes a sunroof, body-colored door handles, and a rear camera for added convenience. Safety remains a key focus with driver and front passenger airbags, ABS, Vehicle Stability Control, Hill-Start Assist, Down Hill Assist, Traction Control, Parking Support Brake, and Tire Pressure Monitoring System. Front and rear parking sensors, a rear camera, cruise control, and an engine immobilizer add further support. Combining strong turbo power, full-time 4WD, useful technology, and Toyota's trusted durability, the 2026 Toyota Prado TX2 is an excellent choice for drivers seeking a capable SUV for both everyday roads and off-road adventures.

A close-up photograph of a car's dashboard area, specifically the controls for the Pre Collision System and Instrument Panel Brightness. The Pre Collision System switch is on the left, featuring a car icon with a star and the word 'OFF'. The Instrument Panel Brightness control is a rotary knob on the right, with a sun icon and a gear-like ring. Red arrows point from text boxes to these controls.
