SAHARA MOTORS FZE

The 2026 Toyota Camry Hybrid G 2.5L is a refined five-seater sedan that combines efficient hybrid performance, comfort, and modern convenience. Powered by a 2488 cc four-cylinder, 16-valve DOHC engine with direct multipoint injection, it delivers a combined 226 HP at 6601 RPM and 22.53 kg-m of torque from 3600 to 5201 RPM. The ECVT transmission provides smooth power delivery, while the front-wheel-drive layout, EPS with tilt and telescopic steering, ventilated front disc brakes, rear disc brakes, MacPherson strut front suspension, and multi-link rear suspension contribute to confident handling. The Camry also features ABS with EBD and BA, VSC, TRC, and hill start assist for added control.

Inside, the 2026 Camry Hybrid G offers a comfortable and practical cabin for five occupants, with fabric seats, a power-adjustable driver seat, driver lumbar support, and a power vertical seat adjuster. The rear seat features a 60:40 split-folding design, three headrests, center armrest, and ISOFIX child restraint anchors. Automatic air conditioning with rear ducts helps maintain cabin comfort, while the 7-inch TFT multi-information display, digital clock, smart entry and start system, power windows, power door locks, and cruise control add convenience. An 8-inch display audio system with speakers, Bluetooth, USB connectivity, Android Auto, and Apple CarPlay keeps passengers connected and entertained.

The exterior of the 2026 Toyota Camry Hybrid G combines a modern appearance with practical equipment, including colour-keyed bumpers and door handles, a black matte-finish front grille, LED headlights, LED front fog lamps, daytime running lights, rear combination lamps, and a high-mounted stop lamp. Colour-keyed power and retractable outside mirrors feature integrated turn signals, while the windshield uses green laminated acoustic glass and the side and rear windows receive UV-cut treatment. A tilt-and-slide sunroof, front and rear parking sensors, TPMS, rear fog lamp, full-size spare tire, tonneau cover, and window defogger further enhance usability. Measuring 4921 mm long, 1840 mm wide, and 1445 mm high, with a 2825 mm wheelbase, 145 mm ground clearance, and a maximum kerb weight of 1595 kg, the Camry is designed for comfortable daily driving.
