SAHARA MOTORS FZE

The 2026 Toyota Hilux Double Cab GLX combines dependable performance, rugged capability, and utility for everyday driving. It is powered by a 2.7L four-cylinder, 16-valve DOHC 2TR-FE gasoline engine with Dual VVT-i and EFI, producing 164 HP and 25 kg-m of torque. A 5-speed manual transmission works with part-time 4WD to provide controlled traction across city roads, highways, and challenging terrain. The Hilux GLX uses 265/65 R17 all-terrain tires with alloy wheels and a steel spare tire. With five seats, practical bed space, and durable construction, it suits business, work, family, and recreational requirements across varied daily needs.

The exterior features a chrome and metallic-black radiator grille, steel front and rear bumpers, chrome-plated door handles, LED headlamps with auto levelling, front and rear fog lamps, daytime running lights, and a high-mount stop lamp. Side steps, front and rear mudguards, side stripes, a bedliner, and a front skid plate enhance functionality and durability. Power outer mirrors with turn signals improve visibility, while green laminated windshield glass with top shade provides practicality. Inside, superior fabric seats, adjustable headrests, a vertical driver seat adjuster, center armrest with cup holder, and rear bench seating provide comfort and useful flexibility requirements.

The Hilux GLX provides a connected cabin with an 8-inch Display Audio system supporting AM/FM radio, USB, and Bluetooth, with six speakers. Air conditioning with rear ducts maintains temperatures, while cruise control supports relaxed highway driving. Keyless power door locking, power windows, steering controls, digital clock, tachometer, multi-information TFT display, and rear camera add convenience. Safety equipment includes ABS with EBD and Brake Assist, front and knee airbags, VSC, Hill-Start Assist Control, Trailer Sway Control, Downhill Assist Control, tire pressure monitoring, and an anti-theft immobilizer. Overall, the 2026 Toyota Hilux GLX delivers practical performance, utility, comfort, and four-wheel-drive functionality overall.
