SAHARA MOTORS FZE

The 2025 Toyota Tamaraw GL 2.4L is a practical two-seater single cab pickup truck that combines dependable performance, useful equipment, strong carrying capability, and everyday functionality. Powered by a 2.4L 2GD-FTV four-cylinder diesel engine, it produces 150 PS and 400 N.M. of torque. The 6-speed automatic transmission provides smooth power delivery, while power steering, IFS coil front suspension, rigid leaf spring rear suspension, disc front and drum rear brakes, and ABS support controlled driving across different road and load conditions. Its 2WD drivetrain provides practical performance for commercial and daily applications.

Inside, the 2025 Toyota Tamaraw GL provides a functional two-seat cabin with practical features for the driver and passenger. The seats are finished in durable PVC material, while both the driver and passenger seats receive separate four-way manual adjustment. The cabin includes manual air-conditioning, power steering, a urethane steering wheel, power-adjustable outside rearview mirrors, keyless entry, two cupholders, and PVC sunvisors with holders. A 7-inch display audio system with two speakers, AM/FM, Bluetooth, USB, and smartphone connectivity provides convenient entertainment and communication. The practical interior is designed to support comfortable and efficient everyday commercial use.

The exterior of the 2025 Toyota Tamaraw GL combines functional pickup styling with practical equipment, including 215/65R16 alloy wheels, black front bumper, black and body-colour radiator grille, LED headlights, LED daytime running lights, power-adjustable outside rearview mirrors, and side steps. The rear features a dropside cargo body designed to provide useful loading flexibility, while the 1025 kg payload capacity supports commercial transportation requirements. Measuring 5300 mm long, 1800 mm wide, and 1800 mm high, with a 3085 mm wheelbase, 1510 mm front and rear tread, and 5.4 m minimum turning radius, the Tamaraw offers practical dimensions.
