SAHARA MOTORS FZE

The 2026 Toyota Camry E 2.5L is a refined five-seater sedan that combines responsive performance, comfortable driving, practical equipment, and modern technology. Powered by a 2.5L A25A-FKS four-cylinder, 16-valve DOHC Dynamic Force engine, it produces 201 HP and 24.47 kg-m of torque. The 8-speed automatic transmission provides smooth power delivery, while electric power steering with speed sensing, MacPherson strut front suspension, multi-link rear suspension, ventilated front disc and rear disc brakes, ABS with EBD and BA, VSC, TRC, and HAC support confident control across different driving conditions.

Inside, the 2026 Toyota Camry E provides a comfortable five-seat cabin with practical features for both the driver and passengers. The seats are finished in fabric upholstery, while the driver's seat receives power adjustment, power vertical seat adjustment, and lumbar support. The cabin includes a 7-inch TFT multi-information display, digital clock, day and night rearview mirror, vanity mirrors with lights, 60:40 split-foldable rear seats, centre armrest, adjustable seat anchors, power windows, power door locks, keyless entry, and automatic window defogger. An 8-inch display audio system with six speakers, Bluetooth, USB, Android Auto, and Apple CarPlay provides convenient connectivity.

The exterior of the 2026 Toyota Camry E combines clean styling with practical equipment, including 205/65R16 tyres, steel wheels, colour-keyed bumpers, power colour-keyed mirrors with turn signals, LED headlights, LED daytime running lights, LED front fog lamps, rear combination lamps, rear fog lamp, and a high-mounted stop lamp. Acoustic green-shade windshield glass and green UV-cut side and rear glass enhance the cabin environment, while front and rear parking sensors support easier manoeuvring. Measuring 4920 mm long, 1840 mm wide, and 1445 mm high, with a 2825 mm wheelbase and 145 mm ground clearance, the Camry offers balanced sedan dimensions.
