SAHARA MOTORS FZE

The 2026 Toyota Hilux Double Cab Pickup GL2 is a dependable combination of strength and practicality, designed for demanding work and everyday driving. Powered by a 2.4-liter 2GD-FTV D-4D turbo diesel engine, this pickup delivers 147 HP at 3400 RPM and an impressive 400 Nm of torque from 1600–2000 RPM, providing strong and reliable performance across different road conditions. Paired with a 6-speed manual transmission and 4WD system, it offers confident traction on highways, city roads, and challenging terrain. Practicality is central to the Hilux's design, with seating for six passengers including the driver, fabric seats, manual air conditioning, and a front bench seat.

With seating for six, the cabin provides a practical and comfortable environment for passengers and daily use. Features such as the overhead console, front cup holders, portable ash tray, power windows, steering-wheel-mounted controls, and sliding back window add convenience, while the 8-inch Connected Display Audio touchscreen provides modern connectivity through Apple CarPlay, DAB radio, and a USB-A port. The Hilux is equipped with an 80-litre fuel tank and delivers a claimed fuel economy of 14.9 km/L, making it suitable for long-distance travel and commercial applications. Its 5325 mm length and 1800 mm width provide a substantial pickup body, while the 17-inch steel wheels, 225/70R17C tyres, rear leaf-spring suspension, bed liner, and floor mats add durability and practicality.

Safety is an important part of the 2026 Hilux GL2, which features essential systems designed to support occupant protection and vehicle control. Driver and front passenger airbags provide protection in the event of a collision, while the Anti-lock Brake System, Electronic Brake-Force Distribution, and Vehicle Stability Control enhance braking and stability. Hill-Start Assist Control and the Tire Pressure Warning System provide additional confidence on different roads and gradients. The pickup also features front disc brakes and rear drum brakes, remote central door locking, power side mirrors with turn signal lamps, a rear fog lamp, front steel bumper, rear mud guards, premium horn, side stripes, and a dedicated safety package, making the Hilux GL2 a practical and reliable choice for work, transport, and everyday use.
